1.3.19

As part of the exciting Broads National Park project (Water, Mills and Marshes) Year 5 visited the International Boat Building College in Lowestoft. The children saw the process of boat building, from the wood arriving at the workshop to a final boat out on the water. They had a practice at some boat building techniques, using the tools used by the apprentice boat builders. They thoroughly enjoyed their day out, especially having the chance to use tools!

We are aware that there is a sickness bug in school. Could we please remind everyone that if your child comes down with this bug that your child must be off school for 48 hours after they have last been sick, this also applies if they have an upset stomach. Can we please also ask parents to remind their children about the importance of washing their hands. Mrs Pollard will be doing a deep clean of the school to ensure everything is as clean as possible.

Year 2 are collecting egg cartons for their school project and they would be most grateful if anyone could bring some into school for them. Thank you.

Before half term, Year 4 were visited by a Roman Soldier. He taught us how to march and use a Roman sword (gladius) and shield (scutum). All of his commands were in Latin! We also got a chance to try on some real armour, which was really heavy! It was a fantastic chance to learn more about the Romans from an expert and everyone had a fantastic time!

Year 4 took part in a Circus

Skills workshop at the Time and Tide Museum recently. It was good fun learning about some real life Circus performers, and trying out some tricks of our own!

We have included an information sheet for parents with this Newsletter about the 'Momo Challenge' that is surfacing again on the internet.

Attendance News!

These are the attendance figures for each class this Week:

Apple—90%
Pears—87.04%
1 Lemons—98.37%
1 Limes—89.77%
