Dear Parents/carers,

I am delighted to inform you that, following my letter to you to inform you that we would be closing after school provision from September, a company called Revolutionary Roots has come forward and will continue to run the provision for us. There **will** therefore continue to be after school provision from September 2019.

Revolutionary Roots have all the necessary qualifications and safeguarding checks in place so the governors and I have confidence they will provide a good service. Instead of paying the school, you will pay Revolutionary Roots from September.

Further details will follow nearer the end of the school year.

My thanks go to Sandy Lysaght for her help with this matter.
