Cinderella's Ball
Tuesday 6th
2pm

Apples Class

Dear Parents,

Literacy We are learning how to write our high frequency words and write a sentence. We will be using our writing for lots of different purposes: stories, lists, forms, letters etc. Please encourage your children to write by asking them to add things to your shopping list, write cards and complete their spelling homework.

Understanding the World
This half term we are learning and talking about how things were different in the past (linked to traditional tales) and about Chinese New Year. Also we are looking at how things change over the seasons.

Mathematics

In maths we are working with numbers up to 20, matching objects to numbers, ordering numbers, estimating, giving a number that is one more or one less than a given number and adding numbers together and taking away numbers. Please help by counting on from different numbers and looking for numbers at home.

PE We are learning to throw and catch balls and move in different ways.

Effective learning skills

To look for patterns and groups in the world around us.

PATHS this means **Providing Alternative THinking Strategies**. We are learning new words for our feelings so we can explain how we feel: sad, happy, excited, frustrated, angry, calm, disappointed.
